

1,000,000 Students!

- Provide solar powered reading lamps to 1,000,000 students.
- Reduce and/or remove the need for kerosene lamps that emit deadly toxic fumes and are a tremendous safety and fire hazard.
- Improve educational, environmental, and financial performance with solar power and a solar based STEAM curriculum.

Inspire the Next Brilliant Solar Champion

Sponsor students and schools for smart resource management and help Million Solar Stars shape the next generation of scientists, engineers, visionaries, artists, manufacturers, and global leaders.
